

Using above sample file we are only able to upload the entitlements but not owners of entitlements

Though we can able to load entitlement owners using the entitlement_owners.sav file we are looking for a way to load entitlement owner only using entitlement_values.sav and csv files

Document followed :

<https://docs.saviyntcloud.com/bundle/SSM-Admin-v55x/page/Content/Chapter04-Onboarding-and-Managing-Applications/5.5.x/Uploading-Entitlements-using-Schema-Based-Upload.htm>

Steps Followed:

1. Click admin→settings→file directory → SAV file
2. Have imported the .sav file

Have prepared a .sav file and .csv file as per the Saviynt suggestion as per the above document and have tried multiple formats of file changes

Reference file formats used:

```

POSSIBLE DATA LOSS Some features might be lost if you save this workbook in the comma-delimited (.csv) format. To preserve these features, save it in an Excel file format.

Using above formats we can load new entitlements but not owners of entitlements

And we can load owners using entitlement_owner.sav file
